Remains Forwarding Policy

Return Home does not ship human remains by air at this time. We will, however, recommend other funeral homes who can provide this service.

At this time, Return Home can only ship terramated remains within the United States and Canada.

The following disclosures are required by the Federal Trade Commission (FTC) Funeral Rule;

FTC Funeral Rule Required Embalming Disclosure

Embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

Clarification from Return Home

Return Home's Terramation process cannot be performed on embalmed bodies at this time. If you are sure that the body will be embalmed, you will need to utilize an alternative method of final disposition.

Should you have any questions regarding either this price list or the description of our services, please contact us at (206) 888-4663 or by email at info@returnhome.com.

About Return Home

Return Home transforms human remains into rich, fertile soil through a service called Terramation. We help gently return our deceased to the earth so that new life may be created, just as nature intended. Terramation is an earth-friendly natural alternative to environmentally damaging burial and cremation methods. Terramation reduces environmental contamination, nourishes soil, preserves and restores land, and reduces relative carbon emissions.

Return Home is a mission-driven company with an absolute commitment to sustainability, respect, simplicity, and affordability. We exist to serve those who care about the future of our planet and seek a natural ending for themselves—a return to the earth from which they came.
